WHO WE ARE

Built for retailers who resell, not just buy.

At Lethpro we believe leather goods should combine timeless design, consistent quality and reliable service. We manufacture premium men's leather accessories in Türkiye using carefully selected **European leather**, and serve retailers through our U.S. company.

That structure is the whole point. You buy from a registered U.S. business on familiar terms, and the goods are made in workshops we stand behind.

Everything in this catalogue is priced landed and delivered. No tiered pricing games, no hidden customs bills, no surprise brokerage invoices three weeks after the shipment clears.

Minimums are set low on purpose. Twelve units per colour and forty-eight per order is small enough to test a style and large enough to see whether it sells.

Our goal is simple: help independent retailers offer products their customers will come back for.

Eight reasons buyers stay with us

Everything below is standard on every order — not a premium tier.

01

European Leather

Carefully selected European hides — the same material basis used by top Italian houses.

02

Turkish Craftsmanship

Every piece is handmade in our own workshops — not factory-produced — at a competitive landed cost.

03

U.S. Company

Lethpro LLC is a registered U.S. business — familiar terms for American buyers.

04

Fast Delivery

DDP to the U.S. and the EU. U.S. delivery in 2-4 days, worldwide on request.

05

Private Label

Carry under our house brand Eagle Epic, or fully under your own store brand.

06

Low MOQ

12 units per colour and 48 per order — mix freely to test what sells.

07

Consistent Quality

Standardised quality control across every production run, order after order.

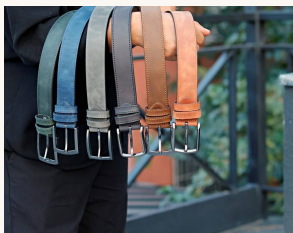

08

Reliable Communication

Direct, clear, fast communication with your account contact.
